---

There is a magazine published called [BMW Kent](#) . This is an enthusiast magazine that keeps car buyers up to date with latest models, track day events and cars for sale in the area. There are a lot of private classified adverts showcasing immaculately valeted cars that claim to be lovingly cherished by their current keeper. The only problem is the assurance you have should anything go wrong post sale. You do not have any comeback as these used cars are sold as seen. That is why it is wise to look at an established independent dealer such as Big Motoring World in Kent.
